**LETTERS FROM CLIENTS**

Dear Josep,

First of all let me say it was pleasure meeting you. I wanted to thank you again for the passion you have demonstrated you have for your work. You went above and beyond in assisting me and making sure that everything on your end was perfect. I really appreciate all the help and insight I received from you and your team. This was a historic event for International Bariatric Club as well as for the American Society of Metabolic and Bariatric Surgery. I was lucky to get you and your expertise and thank you also for being extremely punctual that early in the morning. I will be sure to send a letter from our society to your department at the Venetian Hotel. You displayed a rare quality that I had yet to encounter in any technical department of any hotel in our many travels.

Keep up the good work, and be assured that we will be asking for you by name in our future event in 2013.

Best regards,

Ariel Ortiz Lagardere MD FACS  
President International Bariatric  
Club Tv International Bariatric  
Club

Kevin, Dana & Tony – I don't think the stage has ever run so smoothly! You sent me one angels, Josep he was incredible. Very good to work with, no negativity and ON IT until the end of the show. I would recommend him to anyone, in fact I don't think we'll (Univision Radio) do another event without him..

True professional!

Fingers crossed and prayers, we'll see one another in May 2013! Much blessings to you all.

Ana Quirarte

To Whom his may concern,

This is my personal recommendation for Joseph Sanches who has been a good

friend and a great audio service provider to our company. Joseph audio skills has been immeasurable for the high scaled clients we support. The equipment he provides is all "Top Shelf" technology. We consider Joseph our competitive edge to compete in the world of productions. All I can say are good things about him. He's honest, compassionate and caring. I'm very proud to have him as a friend. Thank you.

To whom it may concern

1090 Wheaton Drive, Troy, MI 48083 (248) 561-5176 [www.sempermediagroup.com](http://www.sempermediagroup.com)

I am writing in regard to the professionalism and work ethic of an extraordinary audio pro, Joseph Sanchez .

My production company manages audio and video for clients and for thirty years has covered a wide assortment of locations. This past year we assisted a client of ours with an event at a major casino in Las Vegas where we found Mr. Sanchez highly recommended as the lead audio engineer.

I would like to say that we have encountered many engineers over the years and that Joseph was exceptional.

There are several reasons. The client had reduced the crew and equipment due to budget constraints, thus making the job of creating a world-class presentation exponentially more difficult. The room also was laid out in a long rectangle with the FOH position on the short side, definitely more challenging to mix.

However, Joseph has such great ears that he put together a tremendous sound and made it a joy for all concerned. He treated the event as if it were the Olympics, with a caring attitude and attention to detail that was wonderful for all concerned. He made the client feel like royalty and managed difficult sound levels exquisitely.

Our client was almost entirely Spanish-speaking, so Joseph was a perfect fit, fluent in Spanish and fine in English. He was very easy and fun to work with, and most accommodating of the infinite little extra requests that are always thrown at the engineer.

Joseph was extremely capable with the entire signal path and all the gear, which involved multiple feeds and many last-minute changes. Quite simply, he has just an extraordinary work ethic.

If you are fortunate enough to work with this excellent talent, I am certain you will be as happy as we were. Our company will always look for opportunities to include Joseph in our team, anywhere in the country. If you would like to speak with me please feel free to call.

Best regards,

Randy Leipnik, President Semper Media Group
